

Programa de Verão 2024 – UAMat/UFCG

Sessão de Análise: UFCG's Webinar On Non-Linear Elliptic PDE's

29 de fevereiro e 01 de março de 2024

Data	Hora	Palestrante	Título
29/02/2024	14h	Humberto Prado (USACH-Chile)	Integral Transforms in the Qualitative Study of Pseudo-Differential Equations
	15h	Pedro Ubilla (USACH-Chile)	Some Superlinear Elliptics Problems
	16h	Mónica Clapp (UNAM-México)	Optimal pinwheel partitions for the Yamabe equation
01/03/2024	14h	Antonio Suarez (US-Espanha)	How do different types of diffusions influence the logistic equation with refuge?
	15h	César Enrique Torres Ledesma (UNT-Peru)	Some results in tempered fractional calculus
	16h	Sabri Bahrouni (UM-Tunísia)	Some recent existence results for problems involving the fractional g -Laplacian
